Continuing Education Workshop

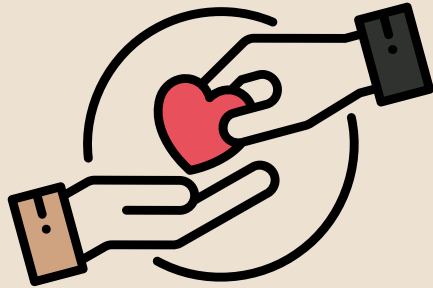

## Purpose:

End-of-life planning is about people and their emotional, physical and mental well-being. Health care professionals working with individuals who are, or are nearing, the end of life can have a difficult and uncomfortable time during these conversations. This workshop will assist professionals in having these important conversations so that when the end of life occurs, a **burden of love** can exist instead of a **burden of guilt**.

Workshop participants will learn the legal framework of end-of-life planning including health care powers of attorney, living wills, do not resuscitate (DNR), physician medical order and final disposition of remains. Most importantly, attendees will learn about the human, ethical framework for end-of-life planning.

## Presenter:

**Judy A. LaMusga**, attorney and counselor-at-law, has 35 years of public service serving individuals living with disabilities and their families. Since opening her practice, LaMusga Law Office, LLC, she has worked for over 15 years as an attorney-at-law in the Miami Valley region specializing in planning for persons with disabilities, elder-law planning, estate planning, end-of-life planning and guardianship.
