THE #OHIOSTRONGPCATRAINING PROGRAM

This program is aimed at helping people, impacted by the coronavirus pandemic, to gain training to become certified personal care aides to work with older adults, or others needing assistance with the activities of daily living, to remain in their homes.

Overview of the program:

1. Each applicant must fill out the program application and send it to Tara Purvis, LSW via email or fax. (TPurvis@Info4Seniors.Org, Fax: 937-341-3005 Attention Provider Relations)

2. The application will be reviewed at the Area Agency on Aging, and then, if approved, we will contact you to set up Certified Nurse Aide (CNA) training at a local training company. You will have ONE week to get registered there.

4. The student will take training, then complete clinical demonstration, gaining Certified Nurse Aide (CNA) certification.

5. A virtual job fair is available at the end of training.

Program Costs:

1. There is no cost to apply to this program.

2. CNA training program cost will be paid for the applicant by funding from an Area Agency on Aging PSA 2 grant in partnership with the Administration for Community Living's Critical Relief for COVID-19 Pandemic Response funds and the Ohio Department of Aging.

Training:

The program is currently working with three training vendors. The student can choose the training option that will work best for their life. We will alert the training source, upon training approval, and then we rely on you to work with them to get you registered. The training company will bill the Area Agency on Aging for the training cost. Training is on-going, with different dates each month. These training companies are planning to conduct the following training classes in the near future:

NOTE: All are state-approved CNA training courses and include the minimum of 75 hours of instruction -- 59 hours of classroom instruction and 16 hours of hands-on training ("clinicals").
